

DO YOU HAVE TAMROCK POWERCLASS JUMBOS IN YOUR FLEET?

Would you like to know how you can treble the running hours out of your piston pumps, drifters and hydraulic components?

Pall corporation have designed a direct replacement return filter element, specifically for this application.

Proven benefits are:

**cleaner oil (< ISO 14/12)
longer element life
longer lasting components
Save money!**

When used in conjunction with Fluid Line Services oil cleanliness program, you can achieve amazing results.

YES — 20,000 hours!

If you would like to know how you can save money and prevent costly breakdowns, downtime and element change-outs call your local Fluid Line Services branch.
